LEWISBURG — It's going to be a beautiful Saturday morning, so get dressed and go join the Merrill W. Linn Land and Waterways Conservancy's walking tour and community mapping exercise in Lewisburg.

The 10 a.m. event begins at the Buffalo Valley Rail Trail near North 15th Street.

Look for Environmental Consultant Brian Auman and Susquehanna Greenway Partnership members, who will lead the trek through improved pedestrian and bicycle routes on local greenways.

It's a good day to enjoy a greenway; that's a corridor that is part of a network of open space that protects natural and scenic resources, said Tom Gibson, chair of the Linn Conservancy's Caring for Communities program, a month-long series of free environmental events.

Greenways make for more recreational opportunities and enhance "the natural beauty and quality of life in communities," Gibson said.

This is made all the better by the recently opened Buffalo Valley Rail, he said.
